COMMUNITY RESOURCE DEVELOPMENT PLAN (CRDP) FISCAL YEAR 2021 (10/27/2020)

Welfare and Institutions Code Section 4625.5(c)

Fiscal Year	Type of Development
FY2021	one 3-bed Enhanced Behavior Support Home (EBHS) for Adult Females with Delayed Egress. To serve consumers who require intensive services and support due to challenging behaviors that cannot be managed in community setting without the availability of enhanced behavior services and supports, and who are now in a more restrictive living arrangements, including locked mental health facility or crisis homes.
FY2021	one 4-bed Level 4I Children's Home. To serve dually diagnosed female adolescents, ages 14 to 17, who requires intensive services and support due to challenging behaviors.
FY2021	Mobile "On-Site" Dental Services - A California licensed dentist to provide full-service dental care to Kern Regional Center consumers at their place of residence. To provide dental care with minimal stress in a familiar and safe environment.
FY2021	Day CARE Program - community-integrated program tailored to the specific needs of the individual. Meaningful activities in the while ensuring health and safety. To serve individuals with developmental disability with opportunities for community engagement, ages 13 to 22 - school age.
FY2021	Transportation services and transportation assistant services to consumers with developmental disabilities who resides in Eastern Kern County. Transporting consumers to and from their place of residence in the Eastern Kern County catchment area to day programs within the Antelope Valley Region. Hours from 6am to 10:30am and 1:30pm to 6pm each weekday. The round trip between the consumer's residence and their respective day program is approximately 80 miles. Consumer may need supervision, assistance with wheelchairs, or assistance and monitoring while being transported. Currently need four (4) routes to serve approximately twenty-two (22) consumers in Eastern Kern County.
FY2021	Full service transportation broker, who provides scheduling, routing, oversight of all contract transportation services, quality assurance and biannual transportation audits.
FY2021	Communication/Technology for families/clients of KRC to borrow/obtain to communicate with service providers and KRC staff beside using the phone. Access to technology such as laptop, tablets, and other form of communication to complete meetings receive alternative service delivery with wifi data has been mentioned and requested during KRC's Self Determination Advisory Committee public meeting.
FY2021	Develop a community clinic. Currently Kern County lacks continuity care services that include comprehensive care for treatment and management for people with Developmental and Intellectual Disabilities with integration with community resources and services for people of all ages. Right now we are seeing the lot of the population outgrowing their pediatrician but no continuity care transition to a provider who can take on their caseload and provide continuity services. Which is resulting in the majority of people getting services through walk in or urgent care creating discontinuous care leading to increase in medical errors and lack of coordination with community services. This particularly affects this population because they often have extensive medical history with multiple medications that need careful and strict oversight and attention.
FY2021	Community Communications Specialist with a focus on community relations and outreach for greater visibility and education for and about the people we serve, increased access to community and generic resources and greater collaboration with community partners. Creates or provides information about community events and utilizes data based system to monitor improvements in community integration and access to services.
